

Double Gas-Cylinder Hand Trucks w/ Firewall

Safely transport with 1-hour fire barrier—designed for fuel and oxidizer cylinders used in welding applications. With this hoist-equipped design, you can easily move a hand truck around a construction site, into locations with poor accessibility, or from floor to floor. Extensive structural framing and a 0.375-in (10-mm) thick hoist plate make these units safe when lifted by hoist rigs.

- Constructed using a 1.25-in (32-mm) diameter round steel tube with continuous welding, it provides optimum safety, strength, and longevity
- Steel encased Marinite® creates on-hour fire barrier between the fuel and Oxidizer. Exceeds minimum NFPA 55, NFPA 1, OSHA and CGA standards.
- Locking posts and collar plates ensure total cylinder immobilization for hoisting applications.
- 16" Steel hub pneumatic wheels with dual ball bearings for easier rolling.
- Both poly cinch straps and steel buckle chain are provided for efficient, less strain and ease of use.
- Bumper guard grips with edge molding cylinder minimizing damage to cylinder
- Floor plate made with 11-gauge steel, 1/3 thicker than competition, for longevity and durability.
- 3-mm steel with safety fins prevents warping or breaking.
- Extensive structural frame. .037 Thick
- Central hoisting point – eliminating cylinder leaning during lift.
- Zero-lift height loading
- Two heavy-duty 1.5-in (38-mm) wide poly straps, lab tested to 1138-lb (516-kg)
- welded loop chains provide a secondary securing the cylinders.
- Triple grip push handle

Also Includes these standard features:

- Unique lockable lid on tool box
- Corrosion-resistant powder-coat finish throughout for long life and smooth handling.
- UV resistant
- Hooks for your hoses

Accessories for Gas-Cylinder Hand Trucks with Firewall

Description	H x W x D*	Model
Tool tray attachment	8 x 20 x 5 in (203 x 508 x 127 mm)	35388
Tool box attachment with lockable lid	8 x 20 x 5 in (203 x 508 x 127 mm)	35386
Cylinder locking post and collar, set of two	43 x 4 x 8 in (1092 x 102 x 203 mm)	35384

*Actual tool box dimensions are 5 x 20 x 5 in (203 x 508 x 127 mm)
